1. (1).

The screenshot shows the 'Оборудование' (Equipment) tab selected in the top navigation bar. On the left, a tree view shows nodes for 'LOCALHOST [S-UYUTOVA]', 'Звуковая плата 1 [1]', 'Контроллер телеметрии 1 [1]', and 'Устройство видеоввода 1 [1]'. A red box labeled '2' highlights the 'Устройство видеоввода 1 [1]' node. To the right, a configuration dialog box is open for 'Устройство видеоввода 1'. The 'Тип' dropdown is set to 'GBT28181(H.264)' (labeled '3'). Other settings include 'PCI канал' (PCI Channel), 'Сигнал' (Signal), 'Разрешение' (Resolution), 'Скорость' (Speed), and network parameters 'IP:' (905769) (labeled '4'), 'Порт:' (Port: 5060) (labeled '5'). Below these are fields for 'Имя' (Name) and 'Пароль' (Password) (labeled '6'). At the bottom of the dialog are checkboxes for 'Активировать watchdog' (Enable watchdog) and 'Использовать настройки устройства' (Use device settings), and a 'Основные настройки' (Main settings) button (labeled '7'). At the very bottom are 'Применить' (Apply) and 'Отменить' (Cancel) buttons.
