

1.

The screenshot shows a configuration window for a security system. The window title is "Бюро Пропусков 1". The interface is divided into several sections:

- Screen Settings:** "Экран" (Screen) is set to "Экран 1". There is a checkbox for "Отключить" (Disable).
- Location Settings:** "Расположение" (Location) section includes a checkbox for "Фиксированное расположение" (Fixed location) and a "Монитор" (Monitor) dropdown set to "2". There are input fields for X, Y, W, and H coordinates.
- Criteria for Duplicating Parameters:** A list of criteria with checkboxes: "ФИО" (set to "Фамилия, имя, отчество"), "Внешний идентификатор", "ПИН код", "Номер автомобиля", and "Email".
- Interaction with Face Recognition Server:** "Сервер" (Server) dropdown, "Порт" (Port) set to "10000", "Логин" (Login) and "Пароль" (Password) input fields.
- Authorization Redirection to DB:** "Логин" and "Пароль" input fields.
- Color Field Highlighting Settings:** Three buttons: "Действие карт не наступило [0]", "Карты просрочены [0]", and "Пользователь заблокирован [0]".
- Advanced Settings:** "Ведущий сервер" (Lead server) dropdown. Checkboxes for "Создавать новых пользователей с АПБ" and "Новые отделы в корне видимы".

Buttons at the bottom: "Применить" (Apply) and "Отменить" (Cancel).
