

(1), (2) / (3).

The screenshot shows a software interface for editing a script. The window title is "Скрипт 2". The menu bar includes "Файл", "Вид", "Отладка и редактирование", "Список сообщений", and "Помощь". The toolbar contains various icons for file operations and execution. On the left, a tree view shows "Сообщения скрипта" expanded to "Скрипт отладка-редактирование", which contains "Скрипт 1" and "Скрипт 2".

The main editor area contains the following code:

```
function sourceId sourceType GetSourceType GetSourceId GetAction GetParam SetParam MsgTo  
if (Event.SourceType == "MACRO" && Event.SourceId == "1" && Event.Action == "RUN")  
{  
    var i;  
    for(i=1;i<=4;i=i+1)  
    {  
        if (GetObjectParam("CAM",i,"color") == "0")  
        {  
            SetObjectParam("CAM",i,"color","1");  
        }  
    }  
}
```

Below the editor is a console window titled "Ввод-Вывод" showing the output: "MACRO|1|RUN".

At the bottom, the status bar shows "строка:13, символ:1" and "Сообщения скрипта \ Тестовое событие /".

Three callouts are present: "1" points to the menu bar, "2" points to the tree view, and "3" points to the console output.
