The screenshot shows a configuration window with a light blue background. On the left, there is a sidebar with an information icon (i) and a text field containing "Луч 1". Below this is a "Регион" (Region) dropdown menu set to "Region 1.1". Further down are two checkboxes: "Устройство видеоввода" (Video input device) with an unchecked box and "Отключить" (Disable), and another "Устройство видеоввода SIP" (SIP video input device) dropdown menu. On the right, under the "Настройки" (Settings) section, there is a "Номер канала" (Channel number) dropdown set to "1". Below it are two radio buttons: "на замыкание" (on closing) which is selected and circled with a black line and the number "1", and "на размыкание" (on opening). At the bottom of the window, there is a dark grey bar with two buttons: "Применить" (Apply) and "Отменить" (Cancel). The "Применить" button is circled with a black line and the number "2".
