10. Merge Agent Location.
11. Subscribers Subscriber (1).

The image shows a Windows-style dialog box titled "New Subscription Wizard". The current step is "Subscribers", with the instruction "Choose one or more Subscribers and specify each subscription database." Below this, a table lists "Subscribers and subscription databases:". The table has two columns: "Subscriber" and "Subscription Database". One row is visible, with "LEAD" in the "Subscriber" column and an empty dropdown in the "Subscription Database" column. A red circle highlights the "LEAD" entry. Below the table, there is a button labeled "Add SQL Server Subscriber...". At the bottom of the dialog, a yellow warning box contains the message: "You must enter a subscription database name for Subscriber 'LEAD'." The bottom of the dialog features a row of buttons: "Help", "< Back", "Next >", "Finish >>", and "Cancel".

Subscriber	Subscription Database

14. Merge Agent Security.

14.1 Run under SQL Server Agent service account (This is not recommended security best practice.) (1).

14.2 OK (2).

Merge Agent Security

Specify the domain or machine account under which the Merge Agent process will run when synchronizing this subscription.

☐ Run under the following Windows account:

Process account:

Example: domain\account

Password:

Confirm Password:

☒ Run under the SQL Server Agent service account (This is not a recommended security best practice.) **1**

Connect to the Publisher and Distributor

☒ By impersonating the process account

☐ Using a SQL Server login

The connection to the server on which the agent runs must impersonate the process account. The process account must be a member of the Publication Access List.

Connect to the Subscriber

☒ By impersonating the process account

☐ Using the following SQL Server login:

Login:

Password:

Confirm password:

The login used to connect to the Subscriber must be a database owner of the subscription database.
