ОБОРУДОВАНИЕ СОБЫТИЯ

ОБОРУДОВАНИЕ СОБЫТИЯ

The interface displays four camera feeds in a 2x2 grid. The top-left camera (1) shows a street view with buildings and trees. The top-right camera (2) shows a bridge over water with a truck crossing. The bottom-left camera (3) shows a bus and a white van on a road. The bottom-right camera (4) shows a parking lot with several cars. Each camera feed includes timestamp, resolution, bit rate, and a dropdown menu set to 'Авто'. A central toolbar at the top provides search, filter, and layout functions. Below the cameras, there are sections for 'ОБОРУДОВАНИЕ' (Equipment) and 'СОБЫТИЯ' (Events). A configuration dialog box is open at the top, showing settings for camera 4: '4' (number of cameras), 'АВТО' (Auto), 'ВЫСОКОЕ' (High), 'НИЗКОЕ' (Low), 'СОХРАНИТЬ' (Save), and 'ОТМЕНИТЬ' (Cancel). The status bar at the bottom indicates the current date and time as 12:40:16.
